CONDITIONAL GRANTS FORMING PART OF MFMA SECTION 71 REPORTS

Objective of Presentation

- To inform the public on allocations to Municipalities and their respective performance of the Division of Revenue Act (**DoRA**)
- To understand DoRA's objective
- To determine what types of financial management information would be useful for civil society to interact with and to publicise
- To make aware the importance of public funds, resource allocation transparency and accountability

Why is S71 of MFMA Necessary?

- To publish the performance of credible municipal budgets and conditional grants
- To monitor municipal spending patterns
- To assist with providing information for oversight by various stakeholders
- As SA is a signatory to the Open-Government-Partnership (OGP).

The aim is to make financial matters more visible to civil society

PARTNERS

OUTLINE OF THIS PRESENTATION

1. *DoRA* – as a political process and its legal requirements
2. How funds are allocated between the 3 spheres of government (Division of Revenue and the vertical split)
3. The Local Government Fiscal Framework
4. Local government has very specific service delivery responsibilities
5. Monitoring and Reporting
6. Local Government transfers
7. Expenditure in terms of purpose
8. The payment schedule to municipalities, including the process for withholding transfers
9. Stopping and the re-allocation of Conditional Grants
10. An example of s71 quarterly results
11. Rollover and Unspent Conditional Grant process

PARTNERS

1. DORA – A POLITICAL PROCESS AND LEGAL REQUIREMENTS

The Division of Revenue is determined politically through various consultation structures – and it must take into account:

- **National interest**
- Provision for national debt and other national obligation
- Needs and obligations of national government
- The need to ensure that provinces and municipalities are able to provide basic services and perform functions allocated to them
- **Fiscal capacity and efficiency for organs of state**
- **Developmental needs across sectors**
- The desirability of stable and predictable allocations- of revenue shares
- **Flexibility to respond to emergencies and other temporary needs**

PARTNERS

2. HOW FUNDS ARE ALLOCATED BETWEEN THE 3 SPHERES OF GOVERNMENT

- The Constitution (s214) requires an annual Division of Revenue Act to allocate funds raised by national government between the three spheres and sets parameters for ensuring the division is **equitable**
- The share of national revenue allocated to each sphere is based on the functions performed by the spheres and as set out in the Constitution:

National Departments

Police and Justice, Higher Education, Social Grants

Fully funded from national revenue

Provincial Departments

Basic Education, Health, Social Development

Limited other revenue (vehicle and gambling licenses) Mostly funded through transfers from fiscus

Municipalities

Basic services (water, sanitation, electricity, refuse removal)

Substantial other revenue (property rates, service charges). Also receives funding from fiscus

PARTNERS

3. THE LOCAL GOVERNMENT FISCAL FRAMEWORK

PARTNERS

4. LOCAL GOVERNMENT HAS VERY SPECIFIC SERVICE DELIVERY RESPONSIBILITIES

Objects of local government

Section 152 of the Constitution

- to provide democratic and accountable government for local communities
- to ensure the provision of services to communities in a sustainable manner
- to promote social and economic development
- to promote a safe and healthy environment
- to encourage the involvement of communities and community organisations in the matters of local government

Developmental Duties of Municipalities

Section 153 of the Constitution

- **A municipality must -**
 - Structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community, and
 - Participate in national and provincial development programmes

PARTNERS

4. LOCAL GOVERNMENT HAS VERY SPECIFIC SERVICE DELIVERY RESPONSIBILITIES – Cont.

Powers and Functions

The Constitution assigns exclusive and concurrent powers and functions to each sphere government. Provinces and municipalities are responsible for providing education, health, social development, housing, roads, electricity and water, and municipal infrastructure services. They have the autonomy to allocate resources to meet basic needs and respond to provincial and local priorities, while giving effect to national objectives.

Priority Functions of Municipalities

Funds Follow Function Principle

- Water (potable)
- Electricity reticulation
- Sanitation
- Refuse removal
- Cemeteries
- Fire fighting
- Municipal health services
- Municipal planning
- Municipal roads
- Storm water
- Traffic and parking
- Building regulations
- Municipal public transport

PARTNERS

5. MONITORING & REPORTING

- Sections 71 of MFMA emphasise accountability, regular monitoring and performance reporting on a monthly basis
- DORA, require monthly expenditure and revenue reporting to the provincial treasuries/national departments and National Treasury
- Provinces and national departments report monthly and quarterly on grant spending and quarterly on non-financial data
- Reports are submitted to sector departments that manage each grant and to National Treasury
- National Treasury submits quarterly expenditure reports to Parliament
- Unspent or misspent CG funds can be recovered against future transfers
- Non-compliant grant spending result in withholding or stopping of transfers
- Under performance – stopping and reallocation

PARTNERS

5. MONITORING & REPORTING – Cont.

Division of Revenue average annual increments

- Division of Revenue provides for the Vertical split
- Local government has seen a significant increase over the period in comparison to other spheres
- Even though indirect allocations are classified under national government, funding still benefits province and local government spheres of government and local government has benefitted more over the period

Table 6.1 Division of nationally raised revenue

6. LOCAL GOVERNMENT TRANSFERS

Allocation Schedules and Grant Purpose

- The conditional grants in the DoRA fall into two main groups, infrastructure and capacity building. These are further categorised by Schedule. Local government conditional grants fall into four Schedules:
 - **Schedule 4, Part B:** Allocations to municipalities to supplement the *funding of programmes* or functions funded from municipal budgets.
 - **Schedule 5, part B:** Specific-purpose grants that fund specific responsibilities and programmes implemented by municipalities.
 - **Schedule 6, part B:** Allocations-in-kind to municipalities for designated special programmes.
 - **Schedule 7, part B:** Allocations to municipalities for immediate disaster response.
- The purpose of each grant is outlined in the Schedules of the DoRA and these are approved by Parliament.

7. EXPENDITURE OF CONDITIONAL GRANTS IN TERMS OF PURPOSE

- Conditional grants are specific purpose allocations to municipalities to achieve strategic goals and priorities of government.
- Section 16. (1) of DoRA states that, “Despite any other legislation to the contrary, an allocation referred to in Schedules 4 to 7 may only be used for the purpose stipulated in the Schedule concerned and in accordance with the applicable framework”.
- What this means is that conditional grants must be spent in line with the grant purpose and any conditions applicable to the conditional grant as outlined in the conditional grant framework.
- Conditional grants cannot be spent outside the grant purpose and not in compliance with the grant framework

PARTNERS

8. PAYMENT SCHEDULE PROCESS FOR MUNICIPALITIES

PARTNERS

8. PAYMENT SCHEDULE PROCESS FOR MUNICIPALITIES – Cont.

MFMA Section 71 Reports

- MFMA provides for monthly and quarterly reports on budgets of municipalities including conditional grants to be submitted in council/Mayor
- The report must include –
 - Actual revenue
 - Actual borrowings
 - Actual expenditure
 - Actual capital expenditure
 - **Allocations received**
 - **Actual expenditure on the allocations received**
 - Material variances from projected revenue and projected expenditure
 - **Remedial or corrective steps taken that projected revenue and expenditure remain within the approved budget**

PARTNERS

8. PAYMENT SCHEDULE PROCESS FOR MUNICIPALITIES – Cont.

On Withholding Transfers (Delayed Transfers)

- Section 17 of 2023 DoRA allows National Transferring Officers (NTOs) to withhold transfers for Schedule 4B or 5B allocation, or any portion thereof, for a period not exceeding 30 days, if there's under spending, rollovers not spent or non-compliance to DoRA clauses and related Grant frameworks.
- Withholding for more than 30 days but not exceeding 120 days requires approval by NT.
- NTOs must at least 7 working days prior to the transfer, notify the municipality and NT of the withholding.
- When requesting the withholding of an allocation in terms of this subsection, the NTO must submit to the National Treasury proof of compliance with the withholding section and any representations received from the affected municipality.
- The NTOs must also allow the affected municipality an opportunity to respond to the withholding letter or make representations on why the transfer should not be withheld.
- Withholding safeguards the cash whilst the Municipalities resolves spending challenges

Variances Between Actual Expenditures by NTOs and Municipalities

- Notable differences have been observed in the reports received from municipalities and National Transferring Officers (NTO's).
- The low expenditure reported by municipalities is an indication that municipalities are still not complying with the mSCOA accounting and reporting requirements.

Infrastructure grants spending as at 4th Quarter Ended 30 June 2024

PARTNERS

11. ROLLOVER

TWO TYPES

- **Un-transferred funds by a department responsible for administering the conditional grants**
 - The form of a rollover is managed by the Treasury Committee, and it is approved by the Minister of Finance and the President through the tabling of the Amendment Division of Revenue bill
 - Departments are required to submit their motivation and request to NT for consideration
- **Transferred already made to municipalities into their primary bank account**
 - Transfers must be made before 31 March, but expenditure should be before 30 June
 - Approval and consideration is done in accordance with the guidance in the MFMA Circular
- **Parallel financial years between the two organs of state (provinces and municipalities)**
- **Adoption of budgets for municipalities must be done before the municipal year starts, 01 July**

PARTNERS

11. ROLLOVER – Cont.

UNSPENT CG PROCESS

- In terms of Section 21 of the Division of Revenue Act, 2023 (Act No. 5 of 2023) as amended by the Division of Revenue Amendment Act (DoRaA) (Act No.24 of 2023), any conditional allocation or a portion that is not spent by the end of 2023/24 financial year reverts to the National Revenue Fund (NRF) unless the roll-over of the allocation is approved.
- The National Treasury (NT) may approve a roll-over of a conditional allocation to the 2024/25 financial year if the unspent funds are:
 - Committed to identifiable projects i.e. A list of all the projects that are linked to the unspent conditional grants and a breakdown of how much was allocated, spent and the balance per projects and
 - Provided that the municipality makes a submission in line with MFMA circular 128 of 2024 i.e. Compliance with the in-year reporting requirements in terms of Sections 71 and 72 of the MFMA and Section 12 of the 2023 DoRA, including the Municipal Manager and Chief Financial Officer signing-off on the information sent to NT

PARTNERS

11. ROLLOVER – Cont. UNSPENT CG PROCESS

- Municipalities that are unable to pay back the unspent funds may request repayment arrangements from NT in paying back the unspent Conditional Grants.
- The National Treasury may, subject to paragraphs (b) and (c) of section 21(1) of the DoRA, offset any funds that must revert to the NRF but not paid back by the date determined in the MFMA circular 128 against the December 2024 transfers of the equitable share.
- Municipalities must submit to NT rollover requests on or before 31 August 2025
- The rollover of unspent conditional grants is approved or rejected by National Treasury, with a differentiated approach towards Disaster funding and municipalities that received additional funds
- NT considers recommendations from the various sector departments, Provincial Treasuries against an application from the municipality

PARTNERS

11. ROLLOVER – Cont. UNSPENT CG PROCESS

- National Treasury facilitates this process through a rollover committee across all nine provinces during the month of September
- Municipalities' applications will not be considered if they fail to adhere to the criteria in the Circular (ie: the rollover must be cash backed and disclosed in the pre-Audited Annual Financial Statement, etc)

Total	40 738 717	17 876 888	22 861 829	21 727 694	43,9%	56,1%

National Treasury dataset

- In-Year monitoring of the grant spending should minimize the rollovers
- Stopping and reallocation therefore allocates to best performing municipalities for early backlogs eradication and serviced delivery
- Rollover approval puts pressure on the next allocation and funds may have been misused
- fiscus in-year and not to stop or discontinue projects.

Non-stopping of funds does not translate into spending, but protects fiscal dumping and possible grant misuse – No stopping for committed and shovel ready projects
